

Marsden Youth And Community Project Meeting

Notes from the meeting 11th November

Present: Keith [community support service] Liz [Young Peoples Service]
Jenni, Gally

Apologise: Fiona, ward councillors.

1] The fire service have very kindly allowed us to hold meetings in the training room of the station; free of charge

2] It is looking good for acceptance to become a sub group of the Marsden Community Association although this has still to go for a vote at their meeting.

3] It was decided not to go through the minutes as there were not enough people present

4] The plans for the goods yard area need to be kept as an agenda item so as not to lose sight of any developments.

5] We decided that without more people present we could not really set out any terms of reference [set of rules] for the group to work to and make decisions; but we could draw up some **draft** aims and objectives for the group for discussion.

6] **Aim:** The **Marsden Youth And Community Project** is set up to improve the facilities and activities available for the Community, Families and Young people of Marsden.

Objectives:

By working with other organisations provide information, activities and learning opportunities

Fundraise for the provision of activities and facility use

To link in with the other groups working within the Marsden area

To find suitable premises for community use

To act as a focal point for information on activities within Marsden and a voice for the betterment of the area

To lobby for improvements to the Marsden area and wellbeing of its residents

Next meeting December 9th 7.30 Marsden Fire Station

**Don't forget the fundraising stall at the Marsden lights switch on,
Afternoon of the 6th December Marsden Mechanics contact Jenni for
more details**
